OUR HISTORY

HERMAN DONOVAN

Beginning of Lifelong Learning: Academic Donovan Fellowship

In the late 1950's, Dr. Herman Donovan, President of the University of Kentucky (UK), dreamt of enriching the lives of older persons. He proposed that colleges and universities open their doors to persons aged 65 and older, allowing them to register for courses free of cost so that they could continue to pursue their interests. He reasoned that colleges and universities owed their greatness to the work, support, gifts, taxes and votes of our older generations.

Twenty-six Donovan Scholars, ranging in age from 65 to 84, were admitted to UK in the fall of 1964, joining 18-year old counterparts for the first time. One of the first programs of its kind in the country, it was not long before the Donovan Program gained national attention. In 1966, TIME magazine dubbed the program "Educare", an obvious reference to Medicare which was in the news at the time. Whereas most of the early Donovan Scholars were from the Lexington area, the national publicity resulted in inquiries from every state and many foreign countries. *(pictured to the left: Donovan Scholar in classroom during 1960s)*

Educational and Enrichment Courses: For the Joy of Learning!

Courses offered in the community were added in 1966 for adults 60+. The Donovan Forum which began in 1970 offers a series of lectures, workshops and entertainment on a wide variety of topics presented by University professors, public and private organizational representatives, OLLI Members, etc.

Osher Lifelong Learning Institute (OLLI) at UK

In January 2007, UK received financial support from the Bernard Osher Foundation to increase learning opportunities in Lexington, allowing our offerings to widen in number and scope, and our membership by lowering the age to 50 and extending lifelong learning to other sites in Kentucky. The Osher Foundation continued their support financially to the University of Kentucky through additional grants, gifts and finally 2 endowments. A National Resource Center, created and funded by the Osher Foundation, supports a national network of 125 OLLIs located from Maine to Hawaii.

OLLI at UK offers courses, forums, seminars, day trips, shared interest groups and events throughout the year in a variety of topics, formats and locations.

We focus on these four renowned rebel painters (active 1815-70) who paved the way to Impressionism and Modernism. The Anglophile and equestrian, Géricault, captured the spirit of wild horses in action, did unprecedented portraits of mental patients, and left a powerful masterpiece, "The Raft of the Medusa." Delacroix, the quintessential Romantic, revived the colorful and grandiose style of Rubens and discovered a special kind of light during his visit to North Africa; Courbet, leader the Realist movement, monumentalized everyday scenes, which he rendered in a bold, dark technique. Manet shocked viewers with a new type of realism, inspired by Japanese prints with novel spatial arrangements. Moreover, he reduced objects and figures to highly simplified forms, making him the Father of Modern art.

10 – 11:30 a.m.**Course Location: Online Zoom Course***Maximum Enrollment: 40 | Course Fee: \$30**

Going Deeper into the Letters Paul Actually Wrote: There are seven New Testament letters Paul actually wrote in the middle of the first century. Years after he died others wrote in his name. They are pseudopigrapha. After years of intensive research Pastor George Martin (author of Paul Found in His Letters) has unearthed some of realities allowing us to see the real Paul in intriguing ways. This course addresses these questions: 1. Can we find a date for Paul in the first century? 2. Discovering Paul's amazing relationships with women? 3. Did Paul silently approve of those who kept slaves? 4. Why did Paul want to take the gospel to Spain? 5. What leads us to think that Paul was less of the theologian and more of a mystic? Pastor Martin (retired Episcopal Priest) became a Pauline scholar in his retirement. His book looks at Paul from a first-century historical and cultural perspective. Highlights from his research shape this course.

2:30 – 4 p.m.**Course Location: Crestwood Christian Church, Bradford Room***Maximum Enrollment: 25 | Course Fee: \$30**

In his 2022 book "The Four Ages of American Foreign Policy", Michael Mandelbaum traces U.S. global relations through four historical periods: as a weak power (1765-1865), as a great power (1865-1945), as a superpower (1945-1990), and as a hyperpower (1990-2015). Have we entered a fifth age of U.S. foreign policy? If so, what are its chief features? The course will examine a number of specific current world problems in light of these questions. It is based on "Great Decisions", a curriculum created by the Foreign Policy Association, whose mission is to serve as a catalyst for developing informed opinion on U.S. foreign policy and global issues. The course involves reading the Great Decisions briefing book about a set of issues, listening to presentations about them, and then discussing them as a group. The book and presentations provide background information on policy options, while avoiding partisan politics. Topics from which to choose this year include: tariffs and the world economy, U.S.-China relations, the risk of nuclear proliferation, Ukraine and European security, international organizations, U.S. engagement with Africa, and human rights and international law.

Sea Power (Hybrid)

Instructor: Rick Elliott

Dates and Times: Tuesdays, February 10 – March 17

10 – 12 Noon

Course Location: Crestwood Christian Church, Bradford Room & Zoom

Maximum Enrollment: 15 In-Person, 5 Zoom | Course Fee: \$30

This course will educate and inform participants about what sea power has meant historically and will examine what it means today and might mean looking forward. The “freedom of the seas” is a centuries-old precept, but many do not realize that the primary driving force behind that precept is commerce. Economics comes first, with naval strength being a necessary corollary to economies that rely on seaborne trade. A nation must have both a strong economy and a powerful Navy to become a “Great Sea Power”. The United States has exercised a hegemony for many decades that included its recognized position as an unrivaled naval power with the world’s largest economy. That hegemony appears to be disappearing rapidly. This SIG will consider who – in anyone – will guarantee freedom of the seas If the United States can no longer “go it alone”.

Steamboats on Kentucky's Ohio River (Hybrid)

Dates and Times: Mondays, February 2 – March 2

1:30 – 3 p.m.

Course Location: Central Baptist Church, Open Door Room & Zoom

Maximum Enrollment: 25 Each | Course Fee: \$30

Kentucky’s northern boundary, the Ohio River, was the Commonwealth’s first thoroughfare, facilitating early settlement and downstream commerce. In 1811, the first Ohio river steamboat, the NEW ORLEANS, proved that this modern invention could go up the river as well. For decades following, the cry “Steamboat a comin’!” would bring locals to the riverbank hoping to catch a glimpse of an elegant craft pouring smoke and cinders out of its tall stacks as it rumbled and belched its way up or down the river, in the latter case at the incredible speed of 12 miles an hour! Boats connected to the Evansville, Louisville, Cincinnati and Maysville trades would stop at the small Kentucky towns along the river, providing an outlet for commerce and an opportunity for travel. This course discusses the first 50 years of steamboat history on the Kentucky side of La Belle Riviere, its triumphs and its tragedies.

The Axial Age: How New Answers to Old Questions Transformed the World

Instructors: Jack Furlong and Penny Lamb

Dates and Times: Mondays, March 2 – May 4

1:30 - 3:30 p.m.

Course Location: Central Baptist Church, Meeting Room 3

Maximum Enrollment: 25 | Course Fee: \$30

Some twenty-five hundred years ago across the globe a new generation of thinkers and do-ers arose who were dismayed and discouraged by the chaos and violence that was sometimes all too dominant in their societies. This new generation of philosophers was able to imagine a world that could be different, and they began to influence others and to teach about a new way of being. Between about 800 and 300 BCE profound changes in schools of thought and societies gave rise to new ideas that have changed and continue to change the world. In Persia, there was Zoroaster. In India Vedantic Hinduism, Jainism and Buddhism began transforming people’s lives. Confucius and Lao-Tse in China began to teach about new ways of living. The concept of monotheism transformed Judaism in the Ancient Middle East, and in Greece new ideas of polity gave rise to the idea of democracy. Although rooted in a distant past, these ideas reshaped our world profoundly and continue to resonate in the lives of people today. In this course we will study these radical movements, considering what came before them, how they arose, and the many ways in which they are still reshaping our world today.

Western Dreams and Ideals Underlying American Civilization (Zoom)

Instructor: Larry Hood

*Dates and Times: Wednesdays, February 4 – March 4
10 – 12 Noon*

Course Location: Online Zoom Course

Maximum Enrollment: 20 | Course Fee: \$30

American theologian Paul Tillich has written that culture is how people interact based on their common understanding of Truth, that is their value system, their religion. American sociologist Peter Berger has asserted that people crave meaning, that religion provides this and social solidarity with all united in a common understanding of reality. The Judeo-Christian religion, intertwined with Greek rationalism and idealism, underlies the western world's ethos and its expressions in daily patterns of living. This course examines the creation of the Western Tradition, its values and worldview, and how American culture is one distillation of that tradition. It will consider the meaning and ramifications of Americans' understanding of community, the individual's proper relationship to community and the purpose and rightful authority of government. Since all history involves determining facts and framing (interpreting) facts, in true liberal arts tradition all participants will be encouraged to contribute their own understandings of the truths of history and discuss same.

In this course I plan to adopt a different approach to reading and understanding this remarkable novel. The class will focus on a close reading and analysis of the text itself. We will look at *MRS. DALLOWAY* as a self-contained and self-referential entity, discovering the novel's meaning through careful examination of its language, structure, and imagery. We will deliberately ignore the use of information that is outside the text as a means to understanding the text; therefore, the author's biography or historical context will not matter when we are interpreting *MRS. DALLOWAY*. Read any edition, but ignore prefaces, introductions, and additional notes. In the final class, we can address Virginia Woolf's fascinating life and historical milieu.

A bluegrass open circle jam is an informal and communal musical gathering where musicians sit or stand in a circle to play and sing traditional acoustic bluegrass tunes. It is not a performance, but a collaborative event for sharing music and improvising together. The jam consists of (1) A song leader: One person in the circle chooses a song, calls out its name and key, and then starts it off with a “kickoff” lick to set the tempo and rhythm, and (2) The “round robin”: The turn to choose a song is passed sequentially around the circle, usually to the left. Participants can pass their turn if they don’t have a song to lead.

The methods help develop a better cultural exchange, understanding of culture, and respect for each other's life. **Students need brush, ink, and paper (links below).** Please use all materials suitable for Korean ink painting, or for Japanese sumi-e or Chinese calligraphy.

Recommended links for materials (found on Amazon):

- Brush: <https://bit.ly/chinesecalligraphybrush>
- Paper: <https://bit.ly/yasutomohoshopaperpad>
- Ink: <https://bit.ly/sumiinkforchinesecalligraphy>

In addition, please prepare water, palette (a regular dish is fine), 2–3 sheets of paper towel, and a piece of felt cloth (any color, size is bigger than your paper) or an old blanket to place under your painting paper (this prevents ink from staining the desk and provides a nice cushion when you paint)

Instructor: George H. Martin

Dates and Times: Tuesdays, March 31 – April 28

10 – 11:30 a.m.

Course Location: Online Zoom Course

Maximum Enrollment: 40 | Course Fee: \$30

Going Deeper into the Letters Paul Actually Wrote: There are seven New Testament letters Paul actually wrote in the middle of the first century. Years after he died others wrote in his name. They are pseudopigrapha. After years of intensive research Pastor George Martin (author of Paul Found in His Letters) has unearthed some of realities allowing us to see the real Paul in intriguing ways. This course addresses these questions: 1. Can we find a date for Paul in the first century? 2. Discovering Paul's amazing relationships with women? 3. Did Paul silently approve of those who kept slaves? 4. Why did Paul want to take the gospel to Spain? 5. What leads us to think that Paul was less of theologian and more of a mystic? Pastor Martin (retired Episcopal Priest) became a Pauline scholar in his retirement. His book looks at Paul from a first-century historical and cultural perspective. Highlights from his research shape this course.

Eisner described as “deeper than a number—6,000,000—giving us a human touch in the midst of inhumanity.” Her son, Irv, will share excerpts from her book, “Only Hope: A Survivor’s Stories of the Holocaust.” You will learn about the Holocaust through his mother’s eyes, as well as how he, the child of two survivors of Auschwitz, was impacted by his parents’ experiences.

Sea Power (Hybrid)*Instructor: Rick Elliott**Dates and Times: Tuesdays, February 10 – March 17**10 – 12 Noon**Course Location: Crestwood Christian Church, Bradford Room & Zoom***Maximum Enrollment: 15 In-Person, 5 Zoom | Course Fee: \$30**

This course will educate and inform participants about what sea power has meant historically and will examine what it means today and might mean looking forward. The “freedom of the seas” is a centuries-old precept, but many do not realize that the primary driving force behind that precept is commerce. Economics comes first, with naval strength being a necessary corollary to economies that rely on seaborne trade. A nation must have both a strong economy and a powerful Navy to become a “Great Sea Power”. The United States has exercised a hegemony for many decades that included its recognized position as an unrivaled naval power with the world’s largest economy. That hegemony appears to be disappearing rapidly. This SIG will consider who – in anyone – will guarantee freedom of the seas if the United States can no longer “go it alone”.

**Steamboats on Kentucky’s Ohio River (Hybrid)***Instructor: Ken Golliher**Dates and Times: Mondays, February 2 – March 2**1:30 – 3 p.m.**Course Location: Central Baptist Church, Open Door Room & Zoom***Maximum Enrollment: 25 Each | Course Fee: \$30**

Kentucky’s northern boundary, the Ohio River, was the Commonwealth’s first thoroughfare, facilitating early settlement and downstream commerce. In 1811, the first Ohio river steamboat, the NEW ORLEANS, proved that this modern invention could go up the river as well. For decades following, the cry “Steamboat a comin!” would bring locals to the riverbank hoping to catch a glimpse of an elegant craft pouring smoke and cinders out of its tall stacks as it rumbled and belched its way up or down the river, in the latter case at the incredible speed of 12 miles an hour! Boats connected to the Evansville, Louisville, Cincinnati and Maysville trades would stop at the small Kentucky towns along the river, providing an outlet for commerce and an opportunity for travel. This course discusses the first 50 years of steamboat history on the Kentucky side of La Belle Riviere, its triumphs and its tragedies.

Western Dreams and Ideals Underlying American Civilization (Zoom)*Instructor: Larry Hood**Dates and Times: Wednesdays, February 4 – March 4**10 – 12 Noon**Course Location: Online Zoom Course***Maximum Enrollment: 20 | Course Fee: \$30**

American theologian Paul Tillich has written that culture is how people interact based on their common understanding of Truth, that is their value system, their religion. American sociologist Peter Berger has asserted that people crave meaning, that religion provides this and social solidarity with all united in a common understanding of reality. The Judeo-Christian religion, intertwined with Greek rationalism and idealism, underlies the western world’s ethos and its expressions in daily patterns of living. This course examines the creation of the Western Tradition, its values and world-view, and how American culture is one distillation of that tradition. It will consider the meaning and ramifications of Americans’ understanding of community, the individual’s proper relationship to community and the purpose and rightful authority of government. Since all history involves determining facts and framing (interpreting) facts, in true liberal arts tradition all participants will be encouraged to contribute their own understandings of the truths of history and discuss same.
